SHORTS GOES ON RECORD

As Opposing Eight Hour or
Other Labor Law On
the Isthmus.

GIVES GOOD REASON.

Washington, Nov. 9.—Theodore P. Shorts, chief of the Isthmian canal commission, was the principal speaker at joint meeting of the American Hardware association tonight. The address was an interesting review of the canal construction. A feature of the address was the opposition to the proposed introduction of the eight hour day law in work of building the canal. "I want to go on record here that the application of the eight hour law, or contract labor law, of Chinese exclusion act, or of any other law passed or to be passed, by congress for the benefit of the American laborer at home, to the labor of the isthmus, is a serious error," he said. "Over eighty per cent of the employees of the canal will be aliens. The majority of the other twenty per cent employed will be in clerical or supervisory capacity. The application of those laws to the isthmus will benefit a very small number of American laborers, but will enormously add to the cost of construction, and American labor at home will have to pay its share of the consequent increase in taxation."

M'CLEARY AND CUMMINS

Discuss Tariff Question Be-
fore the Economic Club
of Boston.

HOLD OPPOSITE VIEWS

Boston, Nov. 9.—At a dinner of the Economic club tonight, Governor Cummings of Iowa, and Henry M. Whitney, democratic candidate for lieutenant governor of Massachusetts, in the recent elections, made addresses in favor of revision of the tariff. The present tariff laws were upheld by Congressmen McLeary of Minnesota and Col. Albert Clark, Boston, secretary of the Home Market club. McLeary declared he was in exact accord with the republican national platform and President Roosevelt on tariff question, believing that there should be no revision until public interests demanded it or were promoted thereby. "And nothing has happened since the platform was adopted and President Roosevelt announced his stand in his letter of acceptance to warrant us in believing that the time for tariff revision has now been reached," said McLeary. He then dissected Governor Cummings' position and declared that of fifteen general schedules in the Dingell act, there are fourteen on which Cummings offers no information. McLeary thought that Cummings had not offered any evidence but simply made unsupported assertions. Governor Cummings' speech was a reiteration of his well known tariff views, "protection, high and low, with home competition, will make a market fair to both seller and buyer," he said. "If protection without home competition among sellers will make a market in which sellers are masters and the buyers are the slaves."

in Streets by Chinese.

Hong Kong, Nov. 9.—Dr. Macle, the American missionary, who escaped the massacre at Lianchow, confirming the previous accounts of the outbreak committed on the American women. While the two were struggling in the water three Chinamen speared them with tridents. Miss Chestnut's body and Amy Macle's head were pierced. Mrs. Macle appealed to the rioters but the mob stoned her brains out, then stripped the body and flung it into the river. The mob then captured Mr. and Mrs. Peale, stripped them naked, exposed them for fifteen minutes, clubbed Mr. Peale to death in his wife's presence and subsequently killed Mrs. Peale in the same brutal fashion.

ELECTION BOARD
REFUSE BALLOTS

Spectacular Features In the
Contest Inaugurated
By Hearst.

COURT ENTERED AN ORDER

Compelling Board to Receive
the Boxes Containing
Votes.

New York, Nov. 9.—The contest over the majority election, inaugurated by William Randolph Hearst, the municipal ownership candidate, developed interesting and spectacular features today. For twelve hours boxes containing nearly 60,000 ballots, cast Tuesday, choked the streets in the vicinity of the headquarters of the board of elections. The ballot boxes had been gathered during the night by the police and conveyed in patrol wagons to the election board's headquarters. There the officials refused to receive them, and the police acting under the court's order compelling the police authorities to turn the ballots over to the election board, had nothing to do but remain outside and await the pleasure of the election officials.

Appraisal of the situation, the attorney for Hearst appeared before Justice Dickey of the state supreme court, and secured from him an order compelling President Voorhis, of the board of elections, to accept the ballots. Board Yields. The board complied with the order and accepted the ballots, which were spread in various warehouses subject to the orders of the board. State's Attorney General Mayer had an important conference this afternoon with District Attorney Jerome, after which it was announced the attorney general's office would remain open until midnight tonight. Superintendent of Elections Morgan appeared before Mayor and Jerome with six of his deputies and placed evidence before the prosecuting officials.

The attorney general received large bundles of subpoenas from the district attorney and immediately put several election deputies at work serving them. Charges that several ballot boxes had been stolen before the returns were reported and that others were found unsealed, were made during the day. Investigation of the election promises to be the most thorough ever made in New York city.

THAT LOBBY
HOUSE IN ALBANY

Again Figures In The In-
vestigation of the In-
surance Scandal.

SOME MORE BIG SALARIES

Metropolitan President Got
Only \$90,000 Annually
But Was Raised.

New York, Nov. 9.—The house in Albany, N. Y., which testimony before insurance investigation committee has heretofore shown was for a number of years maintained by funds of the Mutual Life Insurance company, was again given some attention by Charles E. Hughes, counsel for the committee, when Michael P. Mullaney, caretaker of the house, was called.

Vouchers signed by Mullaney were identified by witnesses who acknowledged receiving the money from them. Some purported to be for legal services, some for sundries and some for traveling expenses.

Mostly Sundries.

The witness said he was not a lawyer, and could not explain why vouchers were made out to that item. Mullaney could not tell what the sundries were unless they were supplied. He had been to New York several times. Sometimes he bought railroad tickets for friends, stationery, and other things. Nineteen vouchers were identified by Mullaney, for all of which he admitted he received the money which aggregated \$5,739. These were paid between March 7, 1900, and July 12, 1905.

Mullaney said his salary was \$250 a month. He had never carried any money to Albany from New York for the Mutual Life Insurance company. He had never paid out any money for Fields.

More Big Salaries.

The Metropolitan Life Insurance company figured in a greater part of the day's proceedings. John R. Hegeman, president, was the first witness today and the expenses of the company were further gone into. It was brought out that Hegeman's salary is the same as that of John A. McCull, president of the New York Life, \$100,000. Previous to 1905, however, Hegeman received \$80,000. The salary of Vice-President Blake, \$75,000. George H. Gaston, second vice-president, \$37,500; Frank O. Ayers, third vice-president, \$15,250.

RAILROADS MISREPRESENT

Proposed Rate Legislation
Merely to Get Rates On
Equal Basis

TOWNSEND EXPLAINS.

Greenville, Mich., Nov. 9.—Congressman Townsend, of Jackson, Mich., one of the authors of the Esch-Townsend railroad rate bill, delivered a spirited address here tonight at a banquet of the Greenville Republican club, his subject being railroad rate legislation. Townsend charged that railroad men had misrepresented this question to the people. He pointed out existing evils and the necessity for curing them, and answered some arguments against conferring the rate making power upon the interstate commerce commission. Instead of the government proposing to dictate to individuals or companies just how much profit they shall make in their business, he said, it simply intends to have them do business on a fair basis.

The purpose of the proposed reform, he said, is to stop the practice of charging one man more than another for the same service.

The other speakers were Governor Warner, Congressman Hamilton and William Alden Smith.

Warner predicted that the business interests of the country will so develop that people will demand Roosevelt's re-election.

CRUSH CRONSTADT MEETING

Drunken Sailors Resort to
Murder, Pillage and
Incendiarism.

MUTINERS AT
CRONSTADT YARD

A Few Still Holding Out Behind Bar-
ricades, But Are Cornered.

Cronstadt, Nov. 9.—Midnight—During the rioting Wednesday night machine guns were employed against the mutinous sailors who had been joined by a battalion of artillerymen from the fortress and which raised the total number of mutineers to 3,000. It is difficult to ascertain the number of casualties, but the officers phase the figures at 200. Many wounded are in the hospitals.

Roughs Joined in Pillage.

Roughs joined in the pillage, but the workmen did not participate in it. Many of the workmen and civilian population have either fled or are trying to flee the city and the docks are piled high with baggage and household effects.

At this hour the city is full of reinforcements from St. Petersburg and others are arriving. Order has been restored and there was no renewal of the trouble during the evening. Fires are still glowing in the market and other groups of buildings. Stores and houses are boarded up, and troops are patrolling the streets.

Searchlights from warships and torpedo boats in the harbor are flashing across the waters in order to aid launches in their search for individual mutineers who are trying to escape to the mainland by boat. Although the majority of the mutineers have surrendered, several hundred are still standing out in the eastern section of town. They have thrown up barricades, but are surrounded and machine guns are posted at all streets leading to their stronghold. It is expected that the remainder of the mutineers will submit tomorrow.

DESERTED BARRACKS
AND GOT DRUNK

The Mutinous Sailors Were Ready to
Kill and Pillage.

Cronstadt, Nov. 9.—The heavens reflected the glare of smouldering fires as the Associated Press correspondent approached Cronstadt this evening. Upon landing, however, hurried inquiries revealed the fact that troops and loyal sailors appeared on the upper bank of the Neva. Fighting had ceased in streets and the town was quiet, but four were expressed there might be further trouble later. Tonight patrols are hunting and capturing mutineers.

THE REVOLT.

The outbreak started yesterday afternoon when sailors of "seventh for equipment" revolted, and it is rumored that some of the officers. They marched out of barracks and immediately plundered four spirit shops. Crazed with liquor they returned and seized their arms, and then went on the rampage, firing promiscuously upon the troops and loyal sailors. Later they were joined by many of their comrades and the fighting continued from midnight until this morning when terms were offered. The lowest estimates place the number of dead at fifty.

FIRST REPORTS SAID
TO BE EXAGGERATED

Authorities at Cronstadt Say Mutiny
Is Crushed.

St. Petersburg, Nov. 9.—The latest from Cronstadt show the reports of the mutiny greatly exaggerated. The facts show that instead of many scores being killed, the total casualties, including dead and wounded, does not exceed 200. The fire was not nearly as extensive as at first reported and was confined to the market and one or two adjoining buildings.

The governor of Cronstadt telegraphed the general staff at midnight that the mutiny had been crushed and there is no likelihood of immediate renewal of the revolt.

ELECTION MOB WRECK PAPER

Crowd at Madison, Ill., Sweep Editor Callon's Shop to Ruins.

IT WAS AN ODD ELECTION

St. Louis, Nov. 8.—P. A. Jones, a printer employed on the Madison, Ill., Tri-City Advocate, a newspaper which has supported the Coyle faction has arrived here with information that the newspaper plant was wrecked by a mob, Jones stated the editor of the paper, E. F. Callon, had been assaulted during the election and that last night a crowd parading the streets celebrating the Garesche victory, forced an entrance to the newspaper office, broke down the door and completely wrecked the plant.

COYLE'S ADHERENTS DID NOT VOTE

Madison, Ill., Nov. 7.—Despite opposition of Mayor Coyle, an election for city officials was held today that was one of the most remarkable ever held here, in that only one ticket, headed by F. A. Garesche, was placed on the ballot. Four hundred and eighteen ballots were cast, four hundred of them for the citizens party candidates. The state supreme court recently held the election last spring was illegal, and several weeks ago Mayor Coyle ordered new elections to be held.

Last Sunday, however, Coyle changed his mind and issued an order calling off the election, claiming the order was illegal. The Garesche faction refused to abide by the last order and yesterday forced the board of trustees to print ballots with the names of their candidates upon them.

Immediately after the result of the election was made known today Coyle accompanied by his son and the latter's wife, left town, destination not known.

IT IS A RACE WAR NOW

Different Classes in the Causes Engage in Bloody Fights.

TROOPS POWERLESS
St. Petersburg, Nov. 7.—News from the Caucasus is particularly bad today. Fighting between Armenians, Tartars and Russians in Daghestan, Caucasus, and Kuban districts assumed a ferocious character and every attempt of the troops to restore order resulted in the population's turning upon the soldiers and fighting them with arms and bombs.

Reports of Cossacks are reported to have been entirely wiped out. The entire trouble is of a revolutionary character, but it gives the people an opportunity to manifest their race hatreds, and most horrible atrocities have been committed.

Cut Up Piece by Piece.
According to a merchant who had just arrived from Baku, scenes witnessed there were beyond belief and not only murder but torture in all directions has been perpetrated. Armenian girls' fingers were cut off one by one and afterward their arms and legs amputated by Tartars and she was allowed to expire in untold agony.

ATROCITIES CONTINUE.

WIDOW GETS \$2000 YEARLY
Amicable Settlement Made With Heirs of D. W. Brenneman.

The estate of the late D. W. Brenneman has been settled as far as the heirs at law are concerned. In the office of the circuit clerk yesterday were filed papers which clearly set out the terms of an amicable settlement between the widow of Mr. Brenneman and the other heirs.

There were filed in the circuit clerk's office Tuesday a bill of sale, quit claim deeds and a mortgage and agreement which settled for ever the claim of the widow.

The will of the late Mr. Brenneman provided for his wife, Mrs. Mary A. S. Brenneman. In the county court recently Mrs. Brenneman filed papers which relinquished her rights under the will and expressed her wish to take what was coming as widow under the law.

Annual Payment.
This matter is now settled by the documents filed for record in the circuit clerk's office. Mrs. Brenneman has agreed to pay the heirs of the late Mr. Brenneman the sum of \$2,000 annually, to be paid in sums of \$500 each quarter. These payments are to continue for the rest of Mrs. Brenneman's life and at her death the contract becomes null and void.

Mortgage Filled.
To secure this agreement of the payment of \$2,000 annually Mrs. Brenneman receives from the other heirs a mortgage on a half section of land, the mortgage being given for foreclosure on the non-payment of the sum specified.

CONTRACTORS BALKED
Refused to Bring In Wells Because of Benefits.

Anthony Beck is here from Texas for a visit. After an absence of five or six years he has many changes and declares that Decatur has made great strides for the better in that time. Mr. Beck lives near Wilburton, Okla., and his business associates have been busy for several years clearing the lumber trees from 2,000 acres of land which they own there.

Fabulous Strikes.
During the last two years some stories of fabulous strikes in oil have reached Decatur, and Mr. Beck and his associates have been pictured as multimillionaires. Mr. Beck says that beyond all question there is oil beneath the lands, but that they have never succeeded in getting an oil well. First a contract was made with a company which consumed eleven months in the work and when they got to the bottom they stopped operations and began to figure on options on adjoining land. Of course all the owners were wise and declined to sell or lease the land, wanting to have the well brought in so that they would be able to put their land on the market as oil bearing. The drillers fooled away so much time that when they tried eventually to bring in the well it had become choked and they could do nothing but to let the well run dry of their money and had to abandon the work.

Drillers Balk.
Beck and his associates then made a contract with some experienced drillers to bring in a well and everything proceeded smoothly until the drilling process was reached. Then the drillers began to speculate in land, or that is what they tried to do. No one would sell. The drillers swore that they would not add value to the land of the neighbors, and unless they could get some leases to a good advantage they would not bring in the well, and they made good on the threat. They pulled up their rigging and left. If they had brought in a well the value of all the land there would have increased enormously. The drillers felt that they had a personal right to say this should not be done unless they had a chance at the divide. Whether they had any right they had the power and spoiled the well. Since they have said to all drillers that the field was no good, that they had made a thorough test. There was no oil. After two experiences of that kind covering the big end of two years Mr. Beck has taken another tack. He will not be at the mercy of the contractors. He has organized a company of Texas men and they will do their own drilling and know to a certainty if there is oil beneath that land. All of the men in the company have absolute faith in the proposition and feel that there was never any failure to show oil, but that they were previously at the mercy of speculators who jockeyed for a big stake and failed to win.

Mr. Beck has not attempted to organize a company in Decatur, but he says that in all probability he will do so at some future day. He expects to return to his southern home one day this week.

VICTORY FOR REPUBLICANS

In Cook County They All But Swept the Platter Clean.

Chicago, Nov. 7.—Republicans made a clean sweep of the election in Cook county today electing all their candidates with the exception of one man.

The sole Democrat to reach the promised land was Webb, candidate for trustee of the sanitary district.

The republicans elected four judges of the superior court by pluralities ranging from 20,000 to 25,000, a judge to fill a vacancy in the superior court by 1,000, a judge of the circuit court by 10,000 and eight out of nine members of the board of sanitary trustees by pluralities ranging from 1,000 to 5,000. A strong fight was waged for the presidency of the board of trustees between McCormick, republican candidate and Wenter, democratic nominee.

McCormick was successful by about 4,000. A number of important questions were up for consideration by voters and all of them were carried by large majorities. They included an amendment to Chicago's charter by which the mayor's term is lengthened from two to four years; abolishment of the present system of justice courts; creation of a forest preserve in Cook county; right of the city to regulate the price of gas; authority to operate electric light plant, and sell to private consumers all the current not used for municipal purposes.

Miller has been visiting in Lincoln for several days and this morning the young couple hurriedly left that city and came to Bloomington to be married. They had intended keeping the affair a secret but it leaked out through a friend to whom Miss Walcott confided her intentions.

LAWYERS ARE TALKING NOW

Arguments In the Penney Case Began Wednesday.

BOTH SIDES EARNEST.

Jury Probably Will Get the Case This Noon.

Both the defense and the prosecution in the Penney case are putting up strong fights for the verdict and so far neither seems much ahead although the case is to go to the jury by noon today if possible. All the evidence was in by 3 o'clock yesterday afternoon. The work of hearing the lawyers' arguments was then taken up.

Mrs. Penney was the principal witness on the stand yesterday. A number of Johnston's clerks were examined but they threw little light on the case one way or the other. Mrs. Penney's testimony throughout gave little weight to either side, although it slightly favored the defense. Mrs. Penney's strongest point was that she had bought a dress for Miss Etta in Indianapolis and had made her a present of it. She also substantiated to some extent the statements made by her daughter on the witness stand the day before.

Arguments.

Four lawyers closed their arguments by 6 o'clock. John Hogan, assistant state attorney, was the first. He urged the jury to convict both mother and daughter of grand larceny. Mr. Hogan talked for an hour. He was followed by Attorney Fuller, of Clinton, who dwelt upon the fact that Mrs. Johnston was the only witness who testified to the truth of the statements made by her daughter.

Attorney Crea for the Prosecution.

Attorney Crea for the prosecution came next. In a quiet manner he mocked the style of Mr. Fuller. Mr. Crea endeavored to make light of Mrs. Penney's statement that she had bought a dress for Miss Etta in Indianapolis. In fact, he almost came out and said that Miss Penney had not told the truth about it.

"Of all the little, light, flimsy stories that were ever concocted in a court room, I think this is about the flimsiest," he declared.

The Cost Market.

Mr. Gray said further that, even though it should be proven that Miss Penney had committed larceny, nothing could be found against the mother. He went on to prove that the value of the goods should not be considered at what it would cost Johnston to replace them. He reminded the jury that Johnston claimed he could not tell what the cost mark meant, made excuses about the tag attached to a piece of lard from Johnston claimed to have been missing from the store for a year. According to Gray's argument, one of his clerks swore that the mark "XLN" meant 95 cents, the "X" being a bluff to make people think they were getting a good bargain by paying but little more than the cost.

prove, or at least to make the jury think that Mrs. Penney and her daughter signed the note and turned over the cash under compulsion and by intimidation from Webster and Johnston.

NEW ELEVATOR A TOTAL LOSS

Big Structure at Bethany Went Up IN Smoke In a Hurry.

A MACHINERY TEST

Is Supposed to Have Developed a Hot Box.

Special to The Herald.
Bethany, Nov. 8.—Scott & Company's new elevator was burned to the ground here this evening. The population of the village was compelled to stand by and see the substantial work in which all felt a pride reduced to ashes without being able to do a thing to save the property.

The elevator had just been completed and had never been used. It was a building of eighty thousand bushels capacity and was said to be one of the best equipped of the kind in the central portion of the state. There was no grain in it.

The work of erecting the building was in the hands of a Chicago firm and they had not yet turned the property over to the Scott company.

This afternoon the machinery was started to test its workings and seemed to be all right.

The plant was closed for the night and shortly after seven o'clock the discovery was made that the big new building was in flames. The fire had gotten such a start that there was no possibility of staying its progress. The illumination was such that the flames were seen by people residing within a wide radius of the village.

The volunteer workers turned their attention to saving the brick engine and boiler room which was slightly separated from the main building, and also the corn cribs.

Within two hours after the fire had been discovered there was nothing left of the elevator but a heap of smoldering ruins.

The loss is placed at \$10,000 and falls on the contractors. It is the understanding here tonight that they will at once begin the work of rebuilding. The amount of their insurance is unknown. The loss to the company is in the delay that has been occasioned by the origin of the fire.

The only explanation of the origin of the fire is found in the theory that a hot box was developed in the machinery during the test this afternoon.

HEARST MANAGERS GET BALLOT BOXES

McClellan's Plurality in New York Is Little More Than Three Thousand Votes.

FIGHT IT OUT IN THE COURTS

Jerome and Others Contend That the Municipal Ownership League Has a Case.

New York, Nov. 8.—Attorneys for Hearst tonight secured an order from Judge Gaynor to Commissioner McClellan directing that every ballot box in the city be sent to the Bureau of elections.

JEROME WILL BACK HEARST CLAIM

Face of Returns Give McClellan Plurality of 3,458.

New York, Nov. 8.—That a bitter fight will be waged in the courts to decide whether McClellan or Hearst is to be mayor is now assured. Complete returns give McClellan a plurality of 3,458 votes, the smallest ever recorded for a successful mayoralty candidate, and a result which might readily be reversed by a recount of the ballots.

Hearst's Plan.

Hearst today announced his intention to take an immediate appeal to the supreme court, his managers declared they had secured evidence of illegal actions against 1,000 election inspectors and that 30,000 Hearst men who went to the polls to vote for him had found their names had already been voted. Hearst's proposed action met with warm approval in many quarters even among those who opposed his election, and he received many assurances of support.

Jerome Approves.

District Attorney Jerome expressed himself in terms of strong approval of Hearst's program and declared he would immediately institute searching investigation of the alleged democratic frauds. He also ordered election returns from the Eighth and Sixth districts carefully guarded. It is in these districts where the greatest frauds are alleged to have been perpetrated.

In (4. Darrin, newly elected district attorney of Queens county on the republican ticket, made a similar statement. William M. Ryan, defeated republican candidate for mayor, also commended Hearst's action and expressed a belief a recount would show Hearst had been elected.

Tammany Statement.

After a secret session of the executive committee of Tammany Hall this afternoon the following statement was issued:

"The executive committee of the democratic organization protests against the outrageous published threat of the defeated candidate of municipal ownership league to overturn the will of the people as expressed by vote cast on election day. It best efforts have committee steps and institute such proceedings as will safeguard the election of George B. McClellan as mayor of New York."

"We also call on the commissioner of police and custodian of the ballots to preserve the same intact from any interference by any one from any unauthorized source."

Good-Bye Murphy.

Some of the leaders of the returns showed a censure of Murphy's leadership and that he should, as a result, step down and out and make room for a man against whom nothing could be said. They thought it was time for George B. McClellan to assume the leadership himself.

Made Many Arrests.

Superintendent of Elections Morgan said tonight that while doubtless many illegal votes were cast he would express no opinion on the contention made by the principal ownership league managers that he had secured 30,000. He had made no such statement, Attorney General Meyer said he had information that illegal votes were cast in several assembly districts. "In any event however," said Attorney General Meyer, "even should we discover thousands of cases of illegal voting, it would not affect the count for the reason the ballots cannot be deducted. As far as we are concerned our justification ends with the prosecution of the crimes where crime and illegal voting has been committed."

That's the Avowed Intention of the Followers of Hearst.

New York, Nov. 8.—The campaign to defeat Tammany hall in the supreme court and to declare William R. Hearst rightfully elected mayor of New York yesterday in place of George B. McClellan was inaugurated at a meeting of the municipal ownership league leaders today.

GARBER CLAIMS ENTIRE TICKET

Herrick and Dick have nothing to Say of Result

Columbus, Ohio, Nov. 8.—Chairman Harry Garber of democratic state committee said this afternoon the plurality for Patterson was gaining as fuller returns came in and that the election of the whole democratic ticket was assured by a safe plurality.

Governor Herrick refused at this time to make any statement explaining that until he had seen fuller returns than had yet been received it would be impossible for him to analyze figures and learn what were the actual causes of defeat of the republican candidates.

For the same reason Senator Dick, chairman of the republican committee, hesitated about being interviewed on causes of the republican defeat.

DOWAGER LOCKS UP CHINA'S EMPEROR

Imprisoned Ruler Is Said to Be Shrieking Like a Lunatic.

The case is doubly interesting from the fact that jaundice in epidemic form is very rare in fact an epidemic of the disease has never before come to the notice of the state board of health.

Just what is the cause of the epidemic is not known, but it is highly probable that the disease is a malignant form, has resulted from drinking stagnant water, although there are other factors to be considered in the investigations as to the cause of the prevalence of the disease.
